**MAGNUM FORGE ANNOUNCES THE LAUNCH OF ITS REDSIGNED WEBSITE
WITH AN EXPANDED FOCUS ON TALENT ACQUISITION**

HOUSTON (MAY 1, 2016) – Magnum Forge today announced the launch of a newly redesigned website: www.magnumforge.com. The site's refreshed look, combined with its enriched content, improved search functionality and optimization for mobile devices, allows visitors to explore Magnum Forge's expanded offerings thoroughly. Among the new features, the site showcases an enhanced recruiting page and offers more detail regarding Magnum Forge's service capabilities, project involvement and the technical experience of its professionals. Magnum Forge offers a wide range of services, including software assessments and selection; software implementation; and business process improvement focused exclusively on the upstream oil and gas sector.

"Headquartered in The Energy Capital of the World, Magnum Forge is fortunate to be frequently faced with new opportunities to develop services and bring in new and exciting talent to assist," says Russell Corl, founder and managing partner of Magnum Forge. "We are eager to offer this new website to promote our ever-evolving suite of services, showcase our talented professionals and continue to recruit top talent."

Also, the website will soon feature interactive software assessment and selection tools; in-depth interviews with clients and Magnum Forge consultants; and industry training programs developed in conjunction with the Forge Foundation. The Forge Foundation is an internal training program developed by Magnum Forge senior management to ensure its professionals remain current on the upstream oil and gas industry. It features education regarding new exploration and production services; technology; and trends in the upstream oil and gas industry.

ABOUT US

Magnum Forge is a world-class consulting firm offering project services to upstream oil and gas clients. Magnum Forge professionals share an in-depth knowledge of the software most used in the upstream industry and bring this industry knowledge and technical expertise to its clients to improve business through technology. Magnum Forge's offerings include software assessments and selection; business process improvement; software implementation (including ERP and related software packages); acquisition integration; and business intelligence/reporting.
