**MAGNUM FORGE MANAGING PARTNER TO SPEAK AT
THE 2016 NG OIL & GAS TECHNOLOGY US SUMMIT**

HOUSTON (MAY 1, 2016) – Russell Corl, founder and managing partner of Magnum Forge, will speak at the 2016 NG Oil & Gas Technology US Summit on June 6th–8th, 2016, at Omni Barton Creek Resort & Spa in Austin, Texas, discussing the upstream oil and gas ERP software market and how much is too much when selecting an ERP solution.

The summit's program, Leveraging Innovative Technology to Improve Production and Lower Costs, brings together senior IT decision makers and business leaders from the oil and gas industry from across North America. The event aims to solve key business challenges facing the industry. This year's event focuses on IT and security optimization; exploration technology; and bid data and analytics.

Magnum Forge is a world-class consulting firm offering project services to upstream oil and gas clients. Magnum Forge professionals share an in-depth knowledge of the software most used in the upstream industry and bring this industry knowledge and technical expertise to its clients to improve business through technology. Magnum Forge's offerings include software assessments and selection; business process improvement; software implementation (including ERP and related software packages); acquisition integration; and business intelligence/reporting.
