**MAGNUM FORGE MANAGING PARTNER TO SPEAK AT  
THE 2017 NG OIL & GAS TECHNOLOGY US SUMMIT**

HOUSTON (JUNE 19, 2017) – Russell Corl, founder and managing partner of Magnum Forge, will again be a featured speaker at the NG Oil & Gas Technology US Summit on June 19th–21st, 2017, at Omni Barton Creek Resort & Spa in Austin, Texas, discussing the upstream oil and gas ERP software market and how to get more bang for your buck during an upgrade.

The **NG Oil & Gas Technology Summit** brings together senior decision-makers and business leaders from across the petroleum industry to share experiences, discover new ideas, and discuss the hottest emerging technologies and solutions in the oil and gas sector.

The summit looks at a number of key themes, including digital transformation, digital oilfields and effective asset management; the changing impact of data, and how best to harness it; and the growing influence of technology tools to manage and protect critical infrastructures.

Magnum Forge is a world-class consulting firm offering project services to upstream oil and gas clients. Magnum Forge professionals share an in-depth knowledge of the software most used in the upstream industry and bring this industry knowledge and technical expertise to its clients to improve business through technology. Magnum Forge's offerings include software assessments and selection; business process improvement; software implementation (including ERP and related software packages); acquisition integration; and business intelligence/reporting.
