MAGNUM FORGE SELECTED TO LEAD P2 MERRICK PROCOUNT SOFTWARE IMPLEMENTATION FOR CALIFORNIA'S LARGEST OIL AND NATURAL GAS PRODUCER

LOS ANGELES, CA – (Feb 14, 2018) – Magnum Forge, an upstream energy IT management consulting firm, has been selected by California's largest oil and natural gas producer to implement P2's Merrick ProCount Suite. The project scope includes process design, system configuration, data conversion and validation, user acceptance, parallel testing, integration with other systems, reports, and training.

"As companies gear back up after the downturn, we see a lot of them updating systems to improve their view of daily production volumes." said Russell Corl, Magnum Forge Managing Partner. "Our client is focused on more than doubling its portfolio over the next few years and we are excited to help prepare them for this anticipated growth."
